A Research Agenda for Models: To Plan and Schedule Manufacturing Systems (Classic Reprint)

By Chacko Abraham

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from A Research Agenda for Models: To Plan and Schedule Manufacturing Systems In this report we propose a research agenda for the development of models to plan and schedule discrete-parts manufacturing systems. The report was commissioned by a set of industrial researchers, academic researchers, and Dr. William Spurgeon of the National Science Foundation (see Acknowledgments for details). Its purposes are to articulate research areas of national importance in the planning and scheduling of discrete-parts manufacturing systems, and to provide funding agencies and researchers with a related agenda. By planning and scheduling we mean the acquisition and coordination of the means of production: . capital resources . human resources . parts and materials . tools and accessories . information The research agenda would provide models that give fundamental principles, insights and/or computer-based algorithms that can be used interactively and iteratively by a decision-maker.
