So you finish every sudoku and sudoku variation you try, and you think youre a master who can conquer any puzzle. Well, consider this collection a challenge! These 110 puzzles are so tough that youll be tearing your hair out . . . while youre also having a great time giving your brain the best workout ever. At first these Sudoku might seem like others youve tried, but the clues you get are very different. Some of the puzzles dont give you very much information to work with perhaps just a more than or less than sign. In other cases, the squares are connected by dotted lines and theres only one sum as a hint. A few Sudoku are simply bigger; but bigger means harder, because instead of the usual 1-9 you have to figure out how 1-16 fits in the grid. Plus, youll find shaped puzzles, arrows and circles in the middle of the grid, and more. To give you a fighting chance at winning our bet, we also outline strategies, provide hints, and teach you a few techniques. So, sharpen your pencils and your mind, and start solving!
