

Corporate Governance and Risk: An Analytical Handbook for Investors, Managers, Directors, and Stakeholders (Hardback)

Filesize: 8.78 MB

Reviews

The publication is great and fantastic. It is probably the most remarkable book i actually have read through. Its been printed in an exceedingly easy way and it is merely right after i finished reading through this publication where in fact altered me, modify the way i think.

McGraw-Hill Education - Europe, United States, 2004. Hardback. Book Condition: New. 230 x 158 mm. Language: English . Brand New Book ***** Print on Demand *****.An authoritative global framework for understanding and benchmarking risks related to a company s governance policies and practices. As each new corporate governance debacle dominates world headlines, demands for strengthened regulatory oversight increase in both frequency and volume. Still, the fact remains that the most effective corporate oversight begins in the corner offices and boardrooms of the corporations themselves. The Standard Poor s Handbook of Governance Risk addresses all aspects of this vital issue. Combining the knowledge and expertise of Standard Poor s with incisive commentary from leading international contributors, this all-in-one book provides stakeholders and decision-makers with: an analytical framework for examining and benchmarking governance standards in individual corporations; insights into the governance impact and importance of ownership structure, shareholder rights, stakeholder relations, transparency, and an effective board to both internal and external governance; and, bases for evaluating and comparing governance practices across companies, countries, and cultures. Capital markets require trust and integrity to function effectively, yet these two qualities more than any other are called into question with each new report of corporate malfeasance and greed. The Standard Poor s Handbook of Governance Risk provides a framework for investors and other stakeholders to help assess the extent to which they should give global corporations their trust - and their money. The corporate governance debate continues to grow in prominence, as the combination of corrupt governance practices in certain cases, and merely substandard governance in less extreme situations, is taking its toll. This book is an analytical handbook for investors, stakeholders, and other analysts wishing to achieve a better practical understanding of key corporate governance issues in individual companies, (and) more effectively identify and...
