### ***Reviews***

*This book is definitely not straightforward to get started on studying but extremely exciting to read. It is really simplistic but shocks in the 50 percent of the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.*

Excerpt: .the class idea years ago, and schools no longer chant the multiplication table in unison holding hands. We music teachers are still in that stage. It is all right to sing in chorus for a great deal of that must be done, but I doubt if much reading is learned in chorus except by a very few of the leaders. At least that is the case until there has been enough individual work done to make all the pupils independent while singing in chorus. Even then, the slow one has no chance, for while he is looking at a note, some quicker one near by will sing it before he has had time to think it out, and it will go into his ear and out of of work deprives him of even the opportunity. u his mouth and never touch his brain at all. He may want to learn very much, but this kind When chorus work is going on, a teacher must watch constantly to see whether the pupils are using their brains or only their ears. If you do much of the advance work individually, this trouble will be reduced to a minimum. All realize the value of individual work but few do enough of it to count. Be careful in doing individual work that it is not a grand carnival of wasted time. When one child is singing be sure that the others are all studying. Do not permit a...
